LENAWEE INTERMEDIATE SCHOOL DISTRICT STUDENT CODE OF CONDUCT

The safety and wellbeing of the LISD's students, staff, and visitors represents one of the most important responsibilities of the LISD. In order to ensure that a safe and nurturing environment is provided for all while on LISD property or participating in an LISD sponsored educational program, event, or activity, the LISD Board of Education has developed and adopted this Student Code of Conduct which is intended to serve as a guide for students, parents, and LISD staff regarding student conduct and discipline. This Student Code of Conduct applies to all LISD programs unless otherwise stated in writing by the LISD.

1. Jurisdiction

Michigan's Revised School Code grants intermediate school districts the power to provide for the safety and welfare of students while at school or a school sponsored activity or while traveling to and from school or any school sponsored activity. MCL 380.601a(b).

Furthermore, the Revised School Code requires intermediate school districts to develop and implement a code of student conduct and enforce its provisions with regard to student misconduct. MCL 380.1312(8).

2. Joint Applicability

In some circumstances, LISD students may also be expected to abide by another code of conduct in addition to the LISD's student code of conduct. For example, students enrolled in a LISD program that is located within a local school district will be expected to abide by both the LISD's and local district's student code of conduct. Typically, if discipline becomes necessary, representatives from both districts will jointly determine the appropriate disciplinary action, provided that such is permissive under both district's student code of conduct. And, the districts will jointly apply/enforce the disciplinary action.

Additionally, LISD programs may develop additional expectations and rules for students enrolled in those programs. In those instances, students are expected to abide by both the program expectations and rules and the expectations and rules in this student code of conduct.

3. Expectations of Students

LISD students will:

- Demonstrate respect for the law, District rules, including this student code of conduct, and for those persons in authority.
- Demonstrate respect for the rights and interests of others.
- Demonstrate respect for real and personal property.
- Demonstrate exemplary personal standards of courtesy, decency, and honesty.
- Demonstrate a sense of responsibility for personal choices.
- Be prepared to learn and contribute positively to the educational environment and program.

- Value the educational program and opportunity provided by the LISD and continually seek to maximize the benefit of program enrollment and attendance for all students.

4. Use of Force

LISD employees and other representatives will not use, inflict, or cause physical pain by hitting, paddling, spanking, slapping, or applying any other means of physical force against a student for the purpose of discipline. A LISD employee or representative may, however, use reasonable physical force against a student as is necessary to maintain order and control within the school environment or educational program. MCL 380.1312.

5. Reporting Student Conduct to Law Enforcement

The LISD Board of Education requires LISD personnel to report to law enforcement student conduct that is suspected to be illegal and that jeopardizes the health or safety of other students, staff, or others, including, but not limited to, anytime that a student is in possession of a dangerous weapon at school or at any school sponsored program or event, a student who engages in arson, a student who engaged in criminal sexual conduct, or a student who physically assaults an employee or other representative of the District.

This does not, however, prevent the LISD from reporting other incidents to law enforcement which, in the opinion of the LISD Superintendent or another District administrator, is suspected to be illegal and that jeopardizes the health or safety of other students, staff, or others.

6. Reporting Student Conduct to a Student's Local District

The LISD is a regional educational service provider of educational programs and services supporting its local constituent school districts and community. Many LISD programs and services represent an extension of the educational program provided by the local school district. As an extension of local district educational programs, the LISD may disclose a student's educational records, including any behavioral incidents or disciplinary action taken by the LISD, to another school system where the student is enrolled so long as the disclosure is related to the student's enrollment. In most cases, the local school district will enforce the same disciplinary action as the LISD. For example, if a student is suspended from a LISD program for conduct while at a LISD school, the local school district will typically apply the same suspension.

7. Reporting Student Conduct to Parents/Guardians

Under most circumstances, student conduct which represents a violation of this Student Code of Conduct will be reported to the student's parent/guardian. If the violation is minor (level one) and the student is not a frequent offender, the student's parent/guardian may not be notified.

8. Reporting Student Conduct to Other Persons or Organizations

The LISD may report student conduct to other persons or organizations where disclosure of the information is necessary to protect the health or safety of the student or other persons. Disclosure of the student's conduct will only be made to the individuals or organizations to whom the information is necessary to protect the health or safety of the student or another person.

9. Student Discipline

The LISD Board of Education desires to provide its students and staff with a learning environment that is free from substantial disruption. To that end, the Board requires that all LISD students adhere to this Student Code of Conduct and that student's submit to such disciplinary measures as are appropriate for infraction of these rules and expectations.

10. Seriousness of Offense

The LISD has developed a level system, which is intended to identify the seriousness of each offense and the typical, minimum disciplinary action to be imposed by the District should a student commit the identified offense. Although the identified levels are intended to establish the basis for which disciplinary action will be determined, the LISD may also consider the following factors in arriving at a disciplinary decision: (1) the egregiousness of the student's conduct; (2) the history or record of the student's past conduct; (3) the impact of the student's conduct on the delivery of educational services to other children; (4) the interest of the student; (5) the student's age; (6) the student's ability-functioning level; (7) circumstances surrounding the offense and the student's intent; and (8) relationship of the student's behavior to the student's mental or physical health.

Level One: A level one offense consists of problematic behavior which violates the expectations and rules of the District community, but is not severe enough to warrant significant disciplinary action, such as removal from class or suspension from school, unless the offender has committed multiple violations. Level one offenses may result in loss of privilege to participate in non-mandatory educational programs, activities, or events sponsored by the District.

Level Two: A level two offense consists of a problematic behavior which violates the expectations and rules of the District community, which may result in immediate removal from class and/or a short-term suspension (10 or fewer days) from school on the first offense, or may result in more severe action if the offender has committed multiple violations. Level two offenses may also result in loss of privilege to participate in non-mandatory educational programs, activities, or events sponsored by the District.

Level Three: A level three offense consists of a problematic behavior which violates the expectation and rules of the District community, which may result in an immediate long-term suspension (more than 10 days) from school on the first offense, or may result in more severe action if the offender has committed multiple violations. Level three offenses may also result in loss of privilege to participate in non-mandatory educational programs, activities, or events sponsored by the District.

Level Four: A level four offense consists of a problematic behavior which violates the expectation and rules of the District community, which may result in expulsion from school on the first offense.

11. Restorative Behavioral Strategies

The LISD may, at its sole discretion, offer students who violate this Student Code of Conduct alternative options to the District's imposed disciplinary action. Such strategies may include participation in a restorative program intended to address the underlying issue(s) believed to be causing the inappropriate conduct. Restorative behavioral strategies may be used at the discretion of the LISD Superintendent.

12. Level One Offenses

Offense	Definition	Seriousness of Offense
Disruptive Behavior	Behavior that interferes with the orderly operation of the educational program and/or school environment.	Level One

14. Level Three Offenses

Offense	Definition	Seriousness of Offense
Battery	Use of force causing bodily harm or injury to another person.	Level Three, however, if the offender is a student in grade six or higher and the battery/assault is against a school representative, Level Four (MCL 380.1311a)
Endangerment	Acting with recklessness or disregard such that significant bodily injury or death to another person is likely.	Level Three
Poisoning	To attempt to cause physical harm to another person by causing them to ingest, inhale, or otherwise absorb a poisonous substance.	Level Three
Possession of an Explosive Device	The possession, while on school property or at any school sponsored program or event, of any device that relies on the exothermic reaction of an explosive material to provide a violent release of energy.	Level Three
Robbery	Taking property from another person by force or threat of force.	Level Three

15. Level Four Offenses

Offense	Definition	Seriousness of Offense
Arson	Acting in a deliberate manner to set fire to property, or the intent or attempt to participate in or enable the burning of property for any reason.	Level Four (MCL 380.1311(2))
Bomb Threat	Reporting to school, public safety, or others the presence of a bomb on or near school property without a reasonable belief that a bomb is present on school property.	Level Four (MCL 380.1311a)
Possession of a Dangerous Weapon	The possession, while on school property or at any school sponsored program or event, of a firearm, dagger, dirk, stiletto, knife with a blade over three inches in length, pocket knife opened by a mechanical device, iron bar, or brass knuckles.	Level Four, unless the student establishes in a clear and convincing manner at least one of the following: (a) the dangerous weapon was not possessed for use as a weapon, or for delivery to another person for use as a weapon. (b) the student did not know he/she had the weapon. (c) the student did not know or should not have been expected to know

		that the item was a dangerous weapon. (d) the student had permission to possess the weapon from school authorities or law enforcement. (MCL 380.1311)
Sexual Misconduct	Engaging in any unwelcome behavior of a sexual nature, which typically includes physical contact with another person that is committed without consent or by force, intimidation, coercion, or manipulation. Sexual misconduct can be committed by a person of any gender, and it can occur between people of the same or different gender.	Level Four (MCL 380.1311(2))
Threat of Violence	Reporting to school, public safety, or others that violence on or near school property is imminent or likely to occur without a reasonable belief that violent activity will occur.	Level Four
Use of a Weapon, including, but not limited to, a Dangerous Weapon	The use of any object which is capable of inflicting serious bodily harm or property damage, as well as endangering the health and safety of persons. Weapons include, but are not limited to, firearms, guns of any type, including spring, air, and gas-powered guns (whether loaded or unloaded) that will expel a BB, pellet, or paint balls, knives, daggers, dirks, stilettos, razors, clubs, electric weapons, metallic knuckles, martial arts weapons, ammunition, and any other weapon described by State or Federal law.	Level Four
Use of an Explosive Device	The placement or use of any device that relies on the exothermic reaction of an explosive material to provide a violent release of energy, regardless of whether or not such actually detonates or causes any explosion, with the intent to cause physical harm or damage to property.	Level Four

16. Safety Sensitive Program

The LISD operates many safety-sensitive programs which, for the protection of staff and students, may necessitate additional expectations and rules beyond those which are included in this Student Code of Conduct. Students are expected to adhere to both those rules and expectations established by the program in which they are enrolled and this Student Code of Conduct.

Michigan law permits the use of medical marihuana by a qualifying patient as defined by the law. However, the law prohibits the possession or consumption of marihuana on a school bus or on the grounds of any preschool, primary, or secondary school. Additionally, the law prohibits anyone to engage in any conduct under the influence of marihuana, when doing so would be dangerous, and permits employers to prohibit employees from working under the influence of marihuana. All persons, including qualifying patients, are prohibited from being under the influence of marihuana or any other prescription

medication, which may impede or interfere with one's ability to participate in any safety-sensitive program or while performing on-the-job training.

Violators will be disciplined in accordance with this Student Code of Conduct.

17. Suspension and Expulsion of Students

A teacher may suspend a student from any class, subject, or activity for up to one full school day if the teacher has good reason to believe that the student committed one or more level two offenses, or if the student has frequently violated one or more level one offenses.

LISD school administrators may suspend a student for 10 or fewer school days for an offense identified in this Student Code of Conduct as a level two or greater offense, or if the offense is identified as a level one offense, but the student is a frequent offender. Before exercising this authority, the school administrator must: (1) provide the student due process as described in the section of this Student Code of Conduct entitled "Due Process and Appeals Rights"; and (2) determine if the student is a student with a disability, in which case the student's discipline is subject to the section of this policy entitled "Discipline of Students with a Disability."

The LISD Superintendent may suspend a student for up to 180 school days for an offense identified in this Student Code of Conduct as a level three or higher offense, or if the offense is identified as a level two offense, but the student is a frequent offender. Before exercising this authority, the LISD Superintendent must: (1) provide the student due process as described in the section of this Student Code of Conduct entitled "Due Process and Appeals Rights"; and (2) determine if the student is a student with a disability, in which case the student's discipline is subject to the section of this policy entitled "Discipline of Students with a Disability."

The LISD Board of Education may expel a student for an offense identified in this Student Code of Conduct as a level four offense, or if the offense is identified as a level two or three offense, but the student is a frequent offender. Before exercising this authority, the Board must: (1) provide the student due process as described in the section of this Student Code of Conduct entitled "Due Process and Appeals Rights"; and (2) determine if the student is a student with a disability, in which case the student's discipline is subject to the section of this policy entitled "Discipline of Students with a Disability."

18. Mandatory Suspension or Expulsion

Michigan's Revised School Code requires the LISD to act to suspend or expel students under certain circumstances, which are as follows:

Physical Assault of Another Student

If a student enrolled in 6th grade or higher intentionally causes or attempts to cause physical harm to another student through force or violence, the LISD must suspend or expel the student from the LISD for up to 180 school days.

Bomb Threat

If a student enrolled in 6th grade or higher makes a bomb threat or similar threat directed at a school building, other school property, or a school-related event, the LISD must suspend or expel the student from the LISD for a period of time determined by the LISD Board of Education.

Physical Assault of a District Employee or Representatives

If a student enrolled in 6th grade or higher intentionally causes, or attempts to cause, physical harm to a LISD employee or representative through force or violence, the LISD must permanently expel the student from the LISD, subject to possible reinstatement as is allowable by law.

Arson

If any LISD student commits arson as defined by Michigan law in a school building or on school grounds, the LISD shall permanently expel the student from the LISD, subject to possible reinstatement as is allowable by law.

Criminal Sexual Conduct

If any LISD student commits criminal sexual conduct as defined by Michigan law in a school building or on school grounds, the LISD shall permanently expel the student from the LISD, subject to possible reinstatement as is allowable by law.

Possession of a Dangerous Weapon

If any LISD student possesses a dangerous weapon as defined by Michigan law in a school building or on school grounds, the LISD shall permanently expel the student from the LISD, subject to possible reinstatement as is allowable by law.

However, the LISD is not required to permanently expel the student if the student established by clear and convincing evidence one of the following: (1) the object or instrument possessed by the student was not possessed by the student for use as a weapon or for direct or indirect delivery to another person to use as a weapon; (2) the weapon was not knowingly possessed by the student; (3) the student did not know or have reason to know that the object or instrument that he/she possessed was a dangerous weapon; (4) the object or instrument was possessed by the student at the suggestion, request, or direction of, or with the express permission of, LISD or police authorities.

19. Discipline of Students with a Disability

When the LISD is considering discipline of a student with a disability and the resulting disciplinary action is determined to be:

1. Expulsion; or
2. Suspension for more than 10 consecutive school days; or
3. Suspension for any period which would result in the cumulative total of suspended days exceeding 10 during the same school year and the removal constitutes a pattern of removal; or
4. Placement in an interim alternative educational program.

The LISD will notify the student's parent/guardian of the disciplinary decision and will provide the parent/guardian with a copy of Michigan's Procedural Safeguards Notice.

Procedural Safeguards for Discipline of a Student with a Disability

Within 10 school days after a decision to impose one of the above-listed disciplinary actions on a student with a disability, the LISD will convene a manifestation determination review team meeting, which must include the student's parent/guardian and relevant members of the student's individualized education program team, for the purpose of determining whether the student's conduct leading to the disciplinary action was a manifestation of the student's disability.

If the manifestation determination review team meeting determines that the conduct was not a manifestation of the student's disability, the LISD will proceed with the decided disciplinary action, and

may, if appropriate, conduct a functional behavioral assessment and develop a behavior intervention plan for the student.

If the manifestation determination review team meeting determines that the conduct was a manifestation of the student's disability, the LISD will not proceed with the decided disciplinary action and will instead: (1) conduct a function behavioral assessment (unless one has already been conducted), develop or modify, and implement a behavior intervention plan for the student; and (2) return the student to the LISD program from which the student was removed, unless both the parent and District agree to change the placement. However, if the conduct consisted of (a) carrying or possessing a weapon, (b) knowingly possessing, using, selling, or soliciting a controlled substance, or (c) inflicting serious bodily harm on another person, the LISD may place a student in an interim alternative educational setting for up to 45 school days, even when the conduct is determined to be a manifestation of the student's disability and regardless of whether or not parent/guardian consent is given.

Definitions Related to the Discipline of Students with Disabilities

For the purposes of this Discipline of Students with a Disability section of the LISD Student Code of Conduct only, the following definitions apply:

“Student(s) with a disability” means a student who has been evaluated according to the Individuals with Disabilities Education Act (IDEA) and the Michigan Department of Education’s Administrative Code regarding the operation of special education programs and services, and is determined by an Individualized Education Program (IEP) team, an individualized family service plan team, or an administrative law judge to have one or more of the impairments that necessitates special education or related services, or both, who is not more than 25 years of age as of September 1 of the school year of enrollment, and who has not graduated from high school. A student who reaches the age of 26 after September 1 is a "student with a disability" and entitled to continue a special education program or service until the end of that school year.

“Student(s) with a disability” also includes “Section 504 student,” which means a student who has a physical or mental impairment that substantially limits one or more major life activities, has a record of such impairment, or is regarded as having such an impairment. These students will have a Section 504 Evaluation and Educational Plan.

“Student(s) with a disability” also includes students not presently identified as a student with a disability if (1) the student’s parent/guardian had, prior to the conduct occurring, expressed concern in writing to an LISD administrator that the student needed special education or related services, (2) the student’s parent/guardian requested a special education evaluation, (3) the student’s teacher or other District personnel expressed specific concerns about a pattern of behavior demonstrated by the student to the District’s Director of Special Education or another LISD administrator.

A student whose parents/guardians refused to allow the LISD to evaluate the student, refused to allow the LISD to provide special education services, or who was previously evaluated and determined not to be a student with a disability, is not a “student with a disability.”

“Weapon” means any device, instrument, material, or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious bodily injury, but does not include a pocket knife with a blade of less than 2 ½ inches in length.

20. Due Process Rights and Appeals Rights

The LISD will ensure that all students are provided due process as required by State and Federal law before a student is suspended or expelled.

If a LISD administrator determines that an emergency exists that requires the immediate removal of a student from school or an LISD program or activity, the administrator may contact the student's parent/guardian or local law enforcement, or take other measures, to have the student safely removed from school or the educational program or activity. The administrator must, as soon as practicable thereafter, follow the procedures outlined below.

Before making the decision to suspend a student for 10 or fewer school days, the LISD will: (1) provide the student verbal notice of the offense the student is suspected to have committed and (2) provide the student an informal opportunity to explain what happened. Except in emergency circumstances, the LISD will not suspend the student unless, after providing the student notice and an opportunity to explain, the LISD is reasonably certain that the student committed a violation of this Student Code of Conduct and that suspension is the appropriate consequence. A student or his/her parent/guardian may appeal the decision to suspend a student for 10 or fewer school days to the LISD Superintendent, whose decision shall be final.

Before making the decision to suspend a student for more than 10 school days, the LISD Superintendent will provide the student and his/her parent/guardian: (1) written notice of the offense the student is suspected to have committed and (2) opportunity for a hearing, at which the student may present evidence and witnesses to show that the student did not commit the alleged offense or that suspension is not an appropriate consequence. The LISD Superintendent will provide the student and his/her parent/guardian at least three calendar days' notice before the hearing. The student and his/her parent/guardian may be represented at their cost by an attorney or another adult advocate at the hearing. The LISD Superintendent will not suspend the student unless, following the hearing, s/he is convinced by a preponderance of the evidence that the student committed a violation of this Student Code of Conduct and that suspension is the appropriate consequence. A student or his/her parent/guardian may appeal the LISD Superintendent's decision to the LISD Board of Education, whose decision shall be final.

Before the LISD Board of Education suspends or expels a student, the LISD will provide the student and his/her parent/guardian: (1) written notice of the offense the student is suspected to have committed and (2) opportunity for a Board hearing, at which the student may present evidence and witnesses to show that the student did not commit the suspected offense or that suspension or expulsion is not an appropriate consequence. The LISD will provide the student and his/her parent/guardian at least three calendar days' notice before the hearing. The student and his/her parent/guardian may be represented at their cost by an attorney or another adult advocate at the hearing. The Board will not suspend or expel the student unless, following the hearing, a majority of the Board is convinced by a preponderance of the evidence that the student committed misconduct that should result in suspension or expulsion under either this Student Code of Conduct or the Revised School Code and that suspension or expulsion is the appropriate consequence. The decision of the Board of Education is final.

21. Educational Programming during Suspension or Expulsion

Unless otherwise agreed by the LISD Superintendent, a student who has been suspended or expelled may not be on LISD property, attend or participate in classes or school functions, or participate in extracurricular activities during the student's suspension or expulsion. The District will, to the extent required by law, assist students who have been suspended or expelled to explore alternative means to earn

credit and to complete course work during the period of the student's suspension or expulsion. Students with disabilities, even if expelled, must be provided with an appropriate education in an alternative educational setting.

Nothing contained in this Student Code of Conduct is intended to prevent a student and/or a student's parent/guardians from exercising whatever rights may be available to them under Federal or State law, administrative code, or other applicable regulation, nor is anything intended to prevent the LISD from immediately removing any dangerous student from an LISD program, activity, or event, or from taking other action allowable under law.
